Required Attachments to TID Revenue Loan Application

Please be as complete and accurate as possible. BCPL will examine all information requested from the Borrower, in addition to other information and documentation that BCPL deems necessary to understand the risks inherent in the transaction, in the determination of potential loan terms.

Statutes require that any TID Revenue Loan provided by BCPL may not exceed an amount that would require annual payments to exceed 80 percent of the shared revenue payments received by the Borrower in the year prior to the date of the loan application.

1. **Project History -** Attach a copy of the original TID project plan approved by the Borrower and the joint review board, along with any approved revisions to that plan.

2. **Project Status** - Attach a narrative description of current TID status including variances from the original or amended project plan and details regarding anticipated future project investments and expenditures.

3. **Increment History and Projections** - Provide a table that includes the TID equalized value, value increment, and borrower tax increment allocations for each year from the formation of the TID to the current year. Include annual projections for the term of this loan. A statement detailing all assumptions used in forecasting these annual tax increments is required.

By signing below, I certify that the above information and all attachments are true and correct to the best of my knowledge.
